

Ingesting your data

A QUICK START GUIDE

1. From the **Datasets** tab, find the layer template for your source input data

2. Click **Ingest dataset** and provide details about the ingest

3. Click **Start ingest** and use the dashboard to monitor the progress of your ingest

4. Once your data is ingested, open it as a data layer and create a data view to explore your data

The GeoSpock Spatial Big Data Platform, sometimes referred to as the Platform, is a cloud-based solution that processes big data and makes it available for analysis, enabling you to find patterns and trends in your data.

If you have any problems, contact support@geospock.com
